Country Overview

Formerly British Honduras, Belize gained its independence as a country in 1981. The government of Belize is a parliamentary democracy and is a member of the Commonwealth of Nations. Though not a violent government, like other countries in Central America, the Belizean government does experience corruption that affects the people on both national and individual levels. With a population of about 335,000, Belize has the lowest population density in Central America. Belize is also the only country in Central America with the official language of English, though Kriol continues to be the most commonly spoken language of the country. An incredibly diverse country, Belize celebrates six main ethnic groups including Garifuna, Creole, Mopan Maya, Q'eqchi' Maya, Mestizo, and East Indian. Even more diverse is Belize's natural beauty. From endless rainforests to the second largest barrier reef in the world, Belize's natural resources support its tourism industry, which continues to be the greatest source of income for the country.

History in Country with JVC

Belize was the very first community of JVC, formerly Jesuit International Volunteers (JIV), which opened in 1984. JVs were placed primarily in the northern districts of Belize and eventually started communities in Belize City, Punta Gorda, and Dangriga. In 2005, the site in Dangriga ended after the closing of the primary school run by religious women. JVC has always had a close relationship with the Jesuits within Belize, most of whom are U.S. American. The Missouri Province of the Society of Jesus oversees the Jesuits in Belize. There are also a number of orders of religious women in Belize City and Punta Gorda who have served as great resources for the JVs, both individually and collectively.

The current work placements in Belize are:
